OUR EXPERIENCE LEADS TO SMARTER ROOFING SOLUTIONS

To ensure that our client receives the best value for their roofing dollar, Holland's estimating team continuously analyzes different roof materials and components so that we may provide the client with sufficient information and roof material alternatives to make the best roofing decision possible. Our extensive experience with a wide variety of roofing materials, is the key to our ability to provide a cost-effective solution for our client's roofing needs.

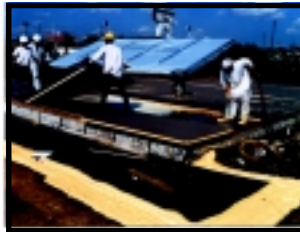

At Holland Roofing, you will always receive personal hands-on service before, during and after job completion.

REROOFING

PROBLEM SOLVING IS OUR SPECIALITY

With over 6000 satisfied customers & over 100,000,000 square feet of roofing material installed, our roof technicians can handle every phase of your reroof project competently and efficiently. At Holland Roofing, we understand the need to minimize disruption of your business activities while replacing your existing roof system. Knowing that you have the best in the business is comforting... Especially when time is of the essence.

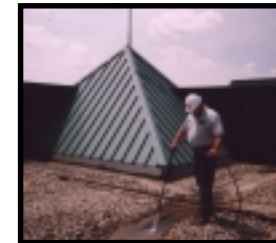

Our crews consist of highly skilled craftsmen experienced with all major roof systems.

MAINTENANCE & REPAIR

ANYTIME... ANYWHERE

We understand the importance of prompt, professional repair service in the face of potential damage to a building and its contents. Nothing is more critical to the long-term performance of a roof system than establishing a program of regular inspections and proper maintenance.

We provide comprehensive maintenance services for single & multi-facility properties.
